

CONTENT

TECHNICAL SCIENCES AND TECHNOLOGIES

Sazanbayeva A., Sagybekova A., Zhanakova R., Atayeva G.K. The research methods of modern geodetic provision from the theoretical and technological points of view	8
Safarova Yu., Alontseva D.L., Khozhanov A., Erbolat D. Brief review of modern trends in the selection of materials for coatings of medical implants and technologies of their manufacture	16
Seredovich V.A., Seredovich S.V., Dmitrienko O.R. The state and prospects of development of geodetic support of construction	29
Serepayeva M.A., Niyazbekova R.K., Kokayeva G.A., Ibzhanova A.A., Adilkanova M.A., Bekeshev A.Z., Aldabergenova S.S. Thermophysical properties of epoxy composites with micro-sphere filler	37
Sidorova A., Toguzova M., Aitbayeva S., Okasova A. Optimization of land use based on landscape analysis and remote sensing methods (on the example of the Glubokovsky district of East Kazakhstan region)	44
Tankibayeva A.K., Kumargazhanova S.K., Kazantsev I.G., Azamatov B.N., Azamatova Zh.K. Correction of non-uniformity of brightness intensity of magnetic resonance images	55
Temirbekov N.M., Turarov A.K. Investigation and numerical solution of the model of the gas lift process	63
Toguzova M., Abdygalieva A., Seilkhanova A., Mamysheva A.M., Apshikur B. The use of modern geoinformation systems in monitoring agricultural land	72
Toguzova M., Askarbekova D., Kaisanova A. About the state regulation of the transfer of agricultural land from one type to another: problems and prospects	81
Toktargalieva A.R., Kalelova I.M. Using new generation mobile GIS to perform field forest recognition	90
Tyurin Y.N., Sagdoldina Zh.B., Kambarov Ye.Ye., Magazov N.M. Investigation of the hardness of 65G steel after electrofriction treatment	99
Uvaliyeva I.M., Belginova S.A., Rakhmetullina Zh.T. Scientific and theoretical questions of clinical decision support technology based on differential diagnosis of clinical and hematological syndromes	107
Ussatova O.A., Zhumabekova A.T., Karyukin V.I., Medetbek Zh.B., Alpysbai G.E., Zhumabekova Q.T., Begimbayeva Ye.Ye. Application of artificial intelligence to detect SQL injections	116
Ustavich G.A., Rakhymberdina M.Ye., Khasenov K.B. Improvement of verification methods for total stations by comparison without a comparator	127
Frolova O.V., Okhotenko A.I., Telgaraeva A., Shcherbakov D.A., Aitbayeva S.S. Monitoring of the condition of the tailings dam of the Orlovskaya processing plant using remote research methods	136
Khapin A.V., Makhiev B.E., Udartseva A.N., Kangalakova K.Zh. Practical application of BIM technology in building condition surveys	146
Khapin A.V., Makhiev B.E. Assessment of physical deterioration and predicted remaining lifetime of metal frames of industrial buildings	156
Chernopyatov V.A., Frolova O.V., Okhotenko A.I., Mataibayeva I.E., Aitbayeva S.S. Integrated application of remote methods: 3D laser scanning and photogrammetry to obtain 3D and bim models for monitoring the conditions of underground minings and designing new engineering structures	164
